

Recycle Love: Rescue a Labrador!

Due to the popularity of Labrador Retrievers many wonderful Labs need good homes. Labs4Rescue is dedicated to saving Labs from overcrowded shelters and finding them new homes. Labs4Rescue has adopted over 4500 purebred and Lab mixes into loving homes just like yours.

Labs4Rescue evaluates each dog and will allow adoption to families that understand the commitment necessary to provide the dog with the best home possible. We are committed to permanent placement and will accept a dog back for any reason if you are not satisfied.

We also need foster homes! Can you foster for 2-4 weeks?

Choosing to rescue a Lab gives them a chance they otherwise would not have.

Please visit our websites at: www.labs4rescue.com and http://ctlabs4rescue.petfinder.com or email: info@labs4rescue.com
